Railroad Equipments Did Not Share Yesterday's Downward Tendency.

WEEKLY BANK STATEMENT

Indications Are That a Stiff Money Market is Likely to Continue.

(By 'Associated Press.)

NEW YORK, October 7.—The weekly bank statement offered a warning of the small rellance to be placed on yesterday's late decline in the call money rate as a reflection of the situation of the money market. Speculative sentiment was brought to the conclusion that a stiff money market was likely to continue for the immediate future and there was selling of stocks in consequence.

A group of industrial specialties, most ly among the railroad equipments stocks with American Locomotive, a conspicwith American Locomotive, a conspicuous leader were notable exceptions to the general downward tendency. The movements in these was of professional origin quite largely, but had as a substantial basis the extraordinary need of the railroads throughout the country for large increases in facilities to accommedate the flood of traffic which is coming upon them.

The strength of this handful of stocks, however, was of little effect in sustaining

All but a small percentage of trust company cash is on deposit with the clearinghouse banks and flaures in their reserve, which therefore constitutes almost the only reserve against both bank and trust company deposits. The New York State Trust Company as a whole reported to the superintendent of banking on September 5th, deposits subject to withdrawal on demand of \$43,564,143, the item of loans on collateral at that date standing at \$75,829,641. The cash in their vaults was then reported at less than \$22,000,000, which was less than 3.5 per cent, of deposit liabilities subject to demand.

Last year most of the trust companies emand. Last year most of the trust companies

demand.

Last year most of the trust companies withdrew from clearinghouse privileges rather than submit to a requirement to maintain ten per cent, as a minimum of cash reserves against denosits, to be increased to 15 per cent, in the discretion of the clearinghouse committee. The present great loan expansion has grown up on account of the existing excellent state of credit and the quick concertibility of the large portion of it placed in call loans leaves the londers undisturbed in their sense of security.

The progress of the legislative investigation of life insurance methods is of some sontimental influence in the stock market. Disclosures of the arrogation of discretion to decide questions of propriety and of confoliance with the letter of law on the part of men powerful and influential in the financial world had its part in the skepticism foltowards last week's bank-statement. The dominance of the money situation has kept slock market operations and movements within a narrow range and has leed other considerations in the 2s coupon 1-2, the 3s registered 3-4, and the old 4s coupon 1 per cent on call on the week.

HOT SPRINGS, VA., October 7.-Mr. and Mrs. George Cole Scott are spending their honeymoon at Bath Alum Springs, a small resort ten miles from here, owned by Dr. Henry S. Pole, of this place. The old hotel was opened there this summer for the first time in many years, and with its modern improvements is and with its modern improvements is a most attractive spot. Dr. Pole's son-in-inw Thomas A. Sterrett, Jr., is managing the resort, which will close in November, for the winter months, and open again early in the spring. Many persons go over from here for luncheon there. As Mr. Sterrett was only married to Miss Daisy Pole on September 12th, the Bath Alum Hotel is sheltering two bridal couples.

Conditions being as just indicated, fresh arrivals in Paris are hard put to find where to lay their heads. The hotels are besieged by scores of applicants. Passengers by the Kronprinz Wilhelm, who arrived in Paris from Cherbourg at 2 o'clock on Wednesday morning, in the majority of cases had to pass the remainder of the night driving round from hotel to hotel in search of beds, and those who obtained bath-rooms were lucky. lucky.

In Servants' Rooms.

One traveler who applied for rooms at the leading hotels a week age had not obtained lodgment there yet, and another, who was accommodated with a servant's bed-room at another caravansery several days ago, is perforce remaining in the same quarters. There is not a hotel that is not turning away would-be patrons dully, and on the other hand, people who have comfortable quarters seem to have made up their minds to stay there.

While hotel keepers themselves do not mind this, hotel servants are disconsolate, for speeding the parting guests is, as

mind this, hotel servants are disconsolate, for speeding the parting guests is, as every traveler in Europe knows, part of their avocation, which brings them most pleasure and profit. Just now Germans are most to the fore, Visitors from across the Rhine have been well in evidence throughout the summer, even during the height of the American season, but at present they are more numerous then ever. The Britisher will have to look to his laurels or the Germans ere long will cutst him from his pre-eminence. The German invasion of the south of France last winter was marked.

No Time to Lose.
